

JUNIOR SOFTWARE DEVELOPER

AGILE TRAINED | SQL & DATABASE MANAGEMENT | COLLABORATIVE PROBLEM SOLVER

Software Engineering Technology student with hands-on experience in web development, database design, and software requirements analysis. Skilled in Java, Python, SQL, and modern development tools through academic and personal projects. Interested in both software development and data-driven problem solving, with a strong foundation in databases, analytics concepts, and collaborative Agile environments. Quick learner with a strong work ethic, eager to contribute to a development team, expand technical expertise, and support successful project outcomes.

SUMMARY OF SKILLS

PROGRAMMING LANGUAGES	C#, Java, JavaScript, Python
WEB DEVELOPMENT	HTML5, CSS, JSON, REST APIs, Node.js, Express.js, MongoDB, .NET, Angular, React
MOBILE DEVELOPMENT	Android Mobile Application Development, Responsive UI Design
DESIGN & IDE TOOLS	MS Visual Studio, Visual Studio Code, Git, IntelliJ, Android Studio
DATABASE MANAGEMENT	MySQL, Oracle, SQL
OPERATING SYSTEMS	Windows, Linux/Unix, Mac
OTHER TOOLS	Ms Office, Figma, Adobe Creative Suite
TRANSFERABLE SKILLS	Communication, Problem-Solving, Adaptability, Teamwork, Leadership

EDUCATION

ADVANCED DIPLOMA, SOFTWARE ENGINEERING TECHNOLOGY
CENTENNIAL COLLEGE SEP 2024 – PRESENT
- QA & Testing Java Programming Web interface Design Software Requirements Database Concepts (SQL) Client-Side Web Development Mobile Development - GPA 4.3/4.5
BACHELOR OF APPLIED SCIENCE IN PUBLIC HEALTH & SAFETY
TORONTO METROPOLITAN UNIVERSITY (FORMERLY RYERSON) 2018 – 2022

PROJECTS

WEB DESIGN - CAR CATALOG WEBSITE
- Designed and developed a responsive three-page website featuring a car catalog. - Implemented filtering functionality to allow users to browse and select cars efficiently. - Built an interactive contact form to improve user engagement and accessibility. - Ensured seamless performance across devices with responsive web and mobile design. - Utilized HTML, CSS, and JavaScript to create a clean, functional user interface.

RETAIL DATABASE APPLICATION

- Designed and developed a retail inventory database using MySQL Server.
- Enabled users to efficiently find, display, store, add, update, and remove product records.
- Applied relational database concepts to ensure data integrity and accuracy.
- Streamlined inventory management by building a scalable and user-friendly system.

SOFTWARE REQUIREMENTS SPECIFICATION DOCUMENT

- Collaborated within an Agile team to develop a Software Requirements Specification (SRS) for a self-designed travel application (*JetLag*).
- Defined functional and non-functional requirements to guide system design and development.
- Created UML diagrams to model system architecture and workflows.
- Developed and maintained Gantt charts to track project milestones and deadlines.
- Outlined features enabling in-app bookings and payments, aligning requirements with user needs.

EXPERIENCE

PUBLIC GARDENS

SERVER | MAY 2025 – PRESENT

- Communicated effectively with kitchen staff and management to resolve issues quickly and maintain guest satisfaction.
- Adapted to changing priorities and handled high-pressure situations while maintaining professionalism and accuracy
- Attended to guests needs efficiently while ensuring a high standard of hospitality
- Anticipated team and guest needs proactively, helping streamline operations and contributing to a collaborative, service-focused environment.

SCADDABUSH ITALIAN KITCHEN + BAR

LEAD SERVER | FEB 2024 - APRIL 2025

- Took initiative to mentor and support new team members, fostering a positive and efficient work culture.
- Balanced multiple tables and customer needs simultaneously, demonstrating strong organizational and time-management skills.
- Stepped into leadership roles during peak hours by coordinating tasks and delegating responsibilities among team members.
- Collaborated with front- and back-of-house staff to ensure smooth service flow in a fast-paced, high-volume environment.
